INSURANCE INFORMATION

Dental insurance is intended to cover "**some**", but not all of the cost of your dental care. The amount of payment which must be made on the day of treatment is based on current benefits "ALLOWED" by your insurance carrier. This generally amounts to your annual deductible plus your co-payment.

We will file treatment claims to your insurance for those who have dental benefits. Each patient accepts the responsibility for your balance in full for services rendered, including those fees not covered by your insurance plan. Dental insurance contracts are between you, your employer and the insurance company. This office is not a party to your private dental insurance contract.
